for Old Kildonan

Priorities for Old Kildonan

Old Kildonan is growing, and our City services and infrastructure need to keep pace. Greg's priorities focus on the issues residents deal with every day.

Safer Neighbourhoods

Better lighting, safer streets and practical crime prevention.

- Improve lighting and neighbourhood infrastructure
- Work with police, community organizations and residents on crime prevention
- Expand traffic calming near schools, parks and seniors' residences
- Address vandalism, graffiti and illegal dumping more quickly
- Support recreation and youth programs that help prevent crime

Better Infrastructure

Reliable roads, sidewalks, back lanes and City services.

- Repair aging roads, sidewalks and back lanes
- Improve snow clearing and ice control
- Modernize aging sewer and water infrastructure
- Maintain parks, playgrounds and community centres proactively

Better Public Transportation

Transit should be reliable, safe and accessible.

- Improve route reliability and service frequency where needed
- Improve bus shelters, lighting and accessibility
- Keep sidewalks and transit stops properly cleared in winter
- Make transit work better for seniors, students and people with disabilities

Moving Chief Peguis Trail Forward

The expansion of Chief Peguis Trail has been discussed for far too long.

Traffic congestion continues to grow across north Winnipeg while residents wait for a project that has remained in planning for years.

As City Councillor, Greg will work with City Council and other levels of government to make the Chief Peguis Trail expansion a priority and help move it from planning toward construction.

Old Kildonan deserves infrastructure that keeps pace with a growing city.

A Councillor You Can Reach

Greg believes representation should continue between elections. As councillor, he will:

Be accessible

Hold regular community meetings and office hours and remain visible throughout Old Kildonan.

Keep residents informed

Provide regular updates about Council decisions, neighbourhood projects and how he voted.

Listen before decisions are made

Give residents meaningful opportunities to provide input on roads, parks, traffic, development and community investments.

Be transparent

Be open about meetings, decisions and how public money is being spent.

Put the community first

Make decisions based on what is best for Old Kildonan rather than political or special interests.

About Greg

Greg McFarlane has called Old Kildonan home almost his entire life. He has raised his family here and watched the community grow and change over decades.

Long before deciding to run for City Council, Greg was involved in the community.

For more than a decade, he has served as a Trustee with the Seven Oaks School Division, including roles as:

- Chair
- Vice-Chair
- Chair of the Policy Committee
- Chair of the Negotiations Committee
- Regional Director with the Manitoba School Boards Association

That experience has meant working with families, educators, community organizations and different levels of government while helping oversee public resources responsibly.

In addition to that Greg has a long history of being an advocate for labour both in elected and appointed roles in his long career as an electrician. Greg has a passion for the trades and has advocated for the Seven Oaks Career Ready program.

Greg knows Old Kildonan because he lives here. He understands the roads that need attention, the parks people use, the traffic residents deal with and the frustration people feel when they cannot get answers from City Hall.

Greg looks forward to improving Old Kildonan for ALL residents.
